PROJECTS

NUMA: Distraction-Free Chrome Extension
NUMA is a sleek Chrome extension that transforms your default new-tab page into a distraction-free, focus-boosting dashboard.

Built NUMA and the landing page with approx. 3000 lines of code.

Discord Bot for Classroom Coordination
Developed a lightweight and efficient Discord bot for my private class server during the COVID-19 lockdown period (2021–2022) designed to assist with classroom coordination and engagement.

Monte Carlo Stock Price Forecasting with GBM
Developed a Monte Carlo simulation for stock price prediction using GBM, leveraging real-time market data and probabilistic modeling.

Applied stochastic modeling to capture market uncertainty and probabilistically estimate near-term price distributions.
