Profile

I am Nitin Tony Paul, a keen programmer with proficiency in Python, JavaScript, C and C++. I have a strong commitment to collaboration and continuous learning, and I take pride in my discipline and dedication to contributing to the industry. With a solid foundation in computer science and hands-on experience, I am eager to apply my skills and make a meaningful impact.

Skills & Proficiencies

Python	JavaScript	C Programming	C++
HTML/CSS	Web Design	Blender	Photo Editing

Projects

Model AI Chatbot

Developed an AI chatbot for our high school final project using Python and TensorFlow. It uses neural networks to analyze user input and respond based on predefined intents in a JSON file, showcasing our ability to apply advanced machine learning concepts.

Discord Bot

Independently developed a Discord bot during the COVID-19 lockdown in 2021 to assist our private class server. The bot, created using Python, provided features such as homework tracking, timetable management, fun games, utilities, and a language filter. This project enhanced the server's functionality, making it a valuable tool for classmates during remote learning.

Education

Govt. Model Engineering College
B.Tech - Computer Science and Business Systems

Aakash Institute
JEE and KEAM preparation

Bhavan's Vidya Mandir, Girinagar
High school diploma

Awards & Certifications

DMMITS CODEX 2022
3rd Place
